## 8. Performance indicators

Where the Trust has identified risks of modern slavery occurring in any part of its services, it will aim to introduce key performance indicators (KPIs) to measure progress against reducing such risks. The Trust will consider setting and reviewing KPIs in the following contexts:

- use of grievance and whistleblowing procedures by staff to raise concerns about instances of modern slavery
- training and awareness-raising amongst staff including risk management; appropriate decision-making and timely remedial action
- oversight of third party suppliers of relevant goods and services supply chains]

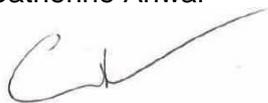

8.1 This statement will be made available to all staff members, stakeholders and the general public by publication on our website. We will also seek to raise awareness of the risks of modern slavery amongst staff by other measures, including discussion of this statement during the induction process for new employees.

8.2 Having assessed the training needs for staff operating in different parts of the Trust, we will look at devising and implementing training and awareness-raising methods attuned to relevant staffing groups. Training courses may be devised in cooperation with external, specialist training providers.

This statement has been approved by the Trust’s Board and will be reviewed at least once annually.
